ASSIGNMENT OF PROSPECTIVE TASK V

SHOPPING MALL – FLOWER SHOP – GROCERY SHOP

Assignment for the child:

It is a big day for your mom today. It is her birthday and you need to do several tasks associated with the celebration. You are most concerned with choosing a present for her. You are going to the shopping mall. You have an idea for a gift but you are limited by your budget. You have 20€ out of your pocket money. You planned to buy a new coffee mug for your mom, a cheerful one with colourful dots, but you also need at least 8€ for a flower. **You begin the task once the administrator places a glass of water on the table in front of you.**

You bought the present and now you are on your way to the flower shop. You have 8€ left. Your mom loves tulips but they are not on offer. She also likes yellow color. **You start picking flowers based on the time instructions the administrator gives you.**

At the end, you drop by a Grocery shop. Mom is going to make some refreshments so she asked you to do some shopping. You need to buy gherkins, nuts and alcohol-free champagne for a toast. **You begin the task in the Grocery shop once the cloud appears.**
